DISTRICT MAINTENANCE WORKERS RECEIVE AWARDS FOR TAKING PRIDE IN THEIR FACILITIES

Back in June, we told you about Facilities Pride, a program implemented by the Division of Property and Supply Services that encourages maintenance workers across the state to keep their facility in tip-top shape.

District 1 maintenance facility in Graves County won the Most Improved Facility Award

Over the past few months, Director of Property and Supply Services Mike Molloy and others from Property and Supply paid a visit to all 12 districts handing

out awards and prizes to well-kept maintenance facilities. Molloy gave out a Best Maintained Facility Award/sign and a Most Improved Facility Award/sign to each district. The signs are to be displayed outside on facility grounds for the public to see. In addition to the awards/signs, each best maintained facility received a gas grill. A congratulations goes out to all 12 districts! Keep up the good work!

If you were hoping to win an award this year and didn't, don't be discouraged. There's always next year. Facilities Pride is expected to be an ongoing program for years to come.

District 1 maintenance facility in Calloway County won Best Maintained Facility Award
